What makes this program uniquely successful?

LMV develops leadership in 9 program days focused on:

Defining your Personal

Values: Each year, our new class unites and discovers the importance of commitment and finding out what makes you uniquely you!

Communication Styles: we meet the city council members, department heads, and corporate leaders and learn to listen, speak and effectively interact.

Creating a Shared Vision: success is multiplied as we implement techniques for working together and how businesses align their actions for bottom line success.

Ethics, Compassion & Respect: we learn to care for each other during a day with health and human services.

Diversity: through development of leadership skills we learn to value the contributions that come from our differences inspiring a shared vision.

Strengthening Others: through a visit to our educational system, we see how we can strengthen and enable others both in the classroom and beyond.

Leading outside the box: we explore arts & media, stretching our creativity and ourselves.

Foster Collaboration: we do a ride-along with the police and have hands-on fire safety training, immersing ourselves in the value promoting cooperative goals and building trust.
